Answer to Prayer

The country has enjoyed peace since 1992 after 30 years of war, and the politicians have genuinely endeavoured to maintain and build on this peace. The government has performed admirably in advancing the nation's democratic, economic and religious freedom status.

Challenge for Prayer

Mozambique's brokenness continues. After being shattered by colonialism and civil war, natural disasters and debt burdens, Mozambique remains one of the world's poorest nations. Personal brokenness also persists as many have been traumatized by the violence and deprivation. Turn these major challenges into prayer:

a) Continuing natural disasters. The cyclones, floods and earthquakes disrupt development and destroy infrastructure, not to mention take many lives.

b) Dependency. Heavy reliance on aid and a high public debt combine with existing poverty to make economic growth a challenge. Many struggle from day to day just to survive, but progress is being made.

c) Disease. Life expectancy averages only 48 years, to a large degree because of disease and extremely basic medical facilities for most. Pray for effective, practical programmes that assist those who need it most.

i) AIDS is a major challenge, with 16% of the adult population HIV-positive. The faith communities and government have united with a national action plan. Pray that a reversal, as in some other African countries, might occur.

ii) Malaria is an even greater bane, with a much higher prevalence – over 5 million cases a year – taking many lives and sapping the health of those who survive.

iii) Other medical issues such as diarrhoea and tuberculosis become even more lethal amidst intense poverty and especially when combined with the above two diseases.
